Arcade 11/2024 - Present

## PROJECTS

### Med-Pha Tech

📅 01/2024 - 06/2024 📍 Uka Tarsadia University

- Med-Pha Tech is a platform connecting pharmacy companies with medical stores. It allows companies to update products and stores to order them.
- Admins are notified of new user registrations, and stores can sort products by category. This project was done in the 5th sem in my college.

### HR Toolkit

📅 12/2023 - 03/2024 📍 NexusLink Services India Pvt. Ltd

The "HR Toolkit" is an integrated system that streamlines HR tasks with features like face recognition for attendance, an employee chatbot for communication, and a shared to-do list for task management, where higher authorities can assign tasks.

- Developed this platform using Python, Pandas, and SQL increased data processing and allowing for real-time business insights and decision-making
